

# Build a Stunning Website in 4 Weeks with AI

## Course Overview

Target Audience:

Teens, beginners, or non-tech individuals who want to create a personal or business website using AI tools.

Tools Used: ChatGPT, Lovart AI, Bolt AI

## Week 1: Plan Your Website with ChatGPT

Goal: Define your website's purpose, content, and structure using ChatGPT.

Topics Covered:

- What kind of website do you need? (Portfolio, business, blog, etc.)
- Planning your sitemap (Home, About, Services, Contact)
- Writing text content using ChatGPT prompts
- Getting color palette and branding ideas from ChatGPT

Tool Used: ChatGPT

Project Task: Create a complete website plan and content outline with ChatGPT

## Week 2: Design Your Website Images with Lovart AI

Goal: Generate all necessary visual content (hero banners, icons, product images, etc.)

Topics Covered:

- Introduction to Lovart AI
- How to generate consistent and themed visuals
- Creating logos, headers, section backgrounds, and icons
- Styling your visuals to match your brand

Tool Used: Lovart AI

Project Task: Generate at least 5 high-quality visual elements for your website

# **Build a Stunning Website in 4 Weeks with AI**

## **Week 3: Build the Website with Bolt AI**

Goal: Create and publish your full website using Bolt AI's drag-and-drop + AI tools

Topics Covered:

- Creating a new site in Bolt AI
- Uploading images and content from previous weeks
- Choosing layouts and themes
- Editing sections and adding pages
- Previewing and publishing your site

Tool Used: Bolt AI

Project Task: Complete the design and layout of your website using Bolt AI

## **Week 4: Final Touches + Launch**

Goal: Optimize and launch your website to the public

Topics Covered:

- Editing text and visual consistency
- Adding contact forms and links
- Mobile responsiveness
- Domain setup (optional)
- Website walkthrough & soft launch

Tools Used: Bolt AI + ChatGPT

Project Task: Finalize and launch your live website

## **Final Project**

Final Output:

Each student will complete and publish a live, AI-powered website with:

## **Build a Stunning Website in 4 Weeks with AI**

- AI-generated text (ChatGPT)
- AI-generated visuals (Lovart AI)
- AI-assembled layout (Bolt AI)
